DOB: 26/03/1996

A confident and motivated individual who strives to achieve the highest level of success in any task. An adept leader who can motivate and communicate well with team members. Currently undertaking MSc: Methodology and Statistics for the Behavioural, Biomedical and Social Sciences at Utrecht University and seeking any opportunities to utilise and further my skills. Interested in applications of statistical techniques to tackle pressing public health issues.

EDUCATION

Utrecht University: *MSc: Methodology & Statistics for the Behavioural, Biomedical & Social Sciences*
September 2018 - July 2020

Fundamentals of Statistics (9.5/10), Multivariate Statistics (8.5/10). Broad selection of courses, including Biomedical Statistics, Psychometrics and Structural Equation Modelling. By working in small groups, challenging existing methodological practices and delivering technical presentations, I am improving on a number of skills, in addition to gaining significant experience in the analysis of real data.

University of Bath: *BSc: Mathematics - First Class Honours*

September 2014 - June 2018

Modules included Medical Statistics (76%), Mathematical Biology (74%), and Applied Statistics (79%). The wide range of topics allowed me to further my knowledge of fundamental mathematical processes, while focusing more on real world applications. Vastly improved upon my problem solving skills, while picking up new skills such as programming with R.

Technical University Munich: *Study Year Abroad*

October 2016 - August 2017

Passed 60 ECTS worth of Master's level credits, including: Generalised Linear Models, Applied Regression, Multivariate Statistics, Computational Statistics, and Macroeconomics. Taking Master's courses pushed me to study more efficiently and with greater intensity. Became extremely interested in the studies and applications of Statistics.

Uckfield Community Technology College, East Sussex: *High School and Sixth Form College*

September 2007 - June 2014

A-Level: Mathematics (A*), Further Mathematics (A*), History (B). **AS Level:** Economics (B)

GCSE: 11 obtained with 3A*, 4A, 4B

EXPERIENCE

Médecins Sans Frontières (MSF), Amsterdam - Volunteering

September 2019 - Present

A retrospective analysis of visceral leishmaniasis relapse incidence trends and risk factors in Lankien, South Sudan, 1999-2019.

Cheviot Asset Management, London - Work Experience.

July 2012

Analysing trends in growth of prospective companies. Attending and evaluating business pitches. Authorising transactions including the buying of stocks. Pitching ideas to a small team.

The Griffin Inn, East Sussex - Barman/Front of House.

June 2012 - Present (Holiday Work)

Displaying and improving social skills in dealing with a variety of customer requests. Taking charge of administrative tasks such as: taking bookings, organising private functions, and managing deliveries.

Private Tutoring, East Sussex.

Tutoring GCSE Maths students - gaining an insight into teaching methods whilst improving on my communicative skills.

SKILLS

Knowledge of R, SPSS, Mplus, HLM, MatLab and MS Office gained from coursework projects.

Leadership - captaining and managing a league cricket team from the age of 16: motivating experienced team members and improving organisational skills by arranging matches and travel.

Ability to work calmly under pressure both in academic work and in my job in the service industry.

AWARDS

German language at level B1. Gold Certificate for the Senior UKMT Maths Challenge. NVQ in Spanish.

INTERESTS

I write for the University magazine 'Bath Time' sport section, and co-hosted a talk show on University Radio. I participate in a wide range of sporting activities, at various levels, including: skiing, tennis, squash, badminton and football at recreational level. I am a keen cricketer and have represented my county in the past.
